

BAPAN GHOSH

FULL-STACK & CROSS-PLATFORM DEVELOPER · DEVOPS ENTHUSIAST

Kumidya, Bankura, West Bengal | bapanghosh081204@gmail.com | <https://bapanghosh.netlify.app/>

SUMMARY

B.Tech IT student (Batch 2027) specializing in building high-performance, production-ready web and mobile applications. Experienced in bridging the gap between cross-platform architectures (MERN, React Native, Flutter) and Intelligent AI systems. Enthusiastic DevOps generalist who scales apps with Docker, Kubernetes, Redis, and automated CI/CD pipelines to ensure 99.9% uptime. Creator of 'Rescuen', a live personal safety application on the Play Store.

TECHNICAL SKILLS

- **App Development:** Flutter, Dart, React Native, Capacitor, Kotlin, Java, Android Studio.
- **Web Development:** React 19, TypeScript, JavaScript (ES6+), Node.js, Express, Tailwind CSS, HTML5, CSS3.
- **DevOps & Cloud:** Docker, Kubernetes (K8s), AWS SDK, GitHub Actions (CI/CD), Redis Caching, Git.
- **Databases & Architecture:** PostgreSQL (pg_trgm), MongoDB, Firebase, SQL/MySQL, WebSockets, REST APIs.
- **AI / ML:** Google Gemini API, LLM Prompt Engineering, OpenCV, NLP, Python.
- **Spoken Language :** English, Bengali, Hindi

PROFESSIONAL EXPERIENCE

Rescuen - The Ultimate Safety (Live on Google Play Store) Jan 2026 - March 2026

- Developed and launched a comprehensive personal safety mobile application using Flutter and React Native frameworks.
- Implemented background location tracking services optimized to reduce device battery consumption by 25% during live tracking.
- Engineered real-time emergency triggers utilizing WebSockets for instant data sync between users and emergency services.

AIML Intern | EDU TANTR

Aug 2025 – Nov 2025

- Successfully completed an intensive AIML internship program and gained practical exposure to professional work settings.
- Successfully acquired knowledge and skills through the comprehensive AIML course provided by EDU TANTR.

College Campus App (Full-Stack & DevOps Project)

Aug 2026 – Present

- Designed and deployed a scalable campus application using React, Node.js, and PostgreSQL, optimizing query speeds by 40% using pg_trgm fuzzy search.
- Containerized the entire application infrastructure using Docker and Kubernetes (K8s) to enable seamless microservices management.
- Integrated Redis Caching to handle high-concurrency requests during peak hours, reducing database load by 60%.

EDUCATION

Bachelor of Information Technology

August 2023 - June 2027

Maulana Abul Kalam Azad University of Technology (MAKAUT), West Bengal
Bengal College of Engineering & Technology
Durgapur, West bengal - 713212

ADDITIONAL INFORMATION

Certifications:

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional
- IBM SkillsBuild Artificial Intelligence Fundamentals with Capstone Project
- Microsoft Certified: Dynamics 365 Fundamentals
- Google 5-Day AI Agents Intensive Course (ULSA, 2025).

Technical Badges:

- Kaggle Python Coder Badge | Kaggle Dataset Creator Badge.
