

BAPAN GHOSH

FULL-STACK&CROSS-PLATFORMDEVELOPER · DEVOPS ENTHUSIAST
Kumidya, Bankura, West Bengal | bapanghosh081204@gmail.com | bapanghosh.netlify.app

SUMMARY

B.Tech IT student (Batch 2027) specializing in building high-performance, production-ready web and mobile applications. Experienced in bridging the gap between cross-platform architectures (MERN, React Native, Flutter) and intelligent AI systems. An enthusiastic DevOps generalist who scales apps with Docker, Kubernetes, Redis, and automated CI/CD pipelines to ensure 99.9% uptime. Creator of 'Rescuen', a live personal safety application on the Google Play Store.

TECHNICAL SKILLS

- **Cross-Platform / App Development:** Flutter, React Native, Android (Kotlin), Java, Android Studio
- **Web / Full-Stack Development:** React, TypeScript, JavaScript (ES6+), Node.js, Express, HTML5, CSS3, Tailwind CSS
- **DevOps & Cloud:** Docker, Kubernetes (K8s), GitHub Actions (CI/CD), AWS, Redis, Git
- **Databases & APIs:** PostgreSQL, MongoDB, MySQL, Firebase (Auth/Firestore/Functions/FCM/Storage), REST APIs, WebSockets
- **AI Integration:** Python, Google Gemini API, LLM Prompt Engineering
- **Spoken Languages:** English, Hindi, Bengali

PROFESSIONAL EXPERIENCE

Rescuen — The Ultimate Safety (Live on Google Play Store)

Jan 2026 – Present

- Developed and launched a production personal-safety Android application on the Google Play Store using React Native.
- Integrated Firebase Authentication (Google & Phone OTP), Cloud Firestore, Cloud Functions and FCM with secure REST APIs, App Check and reliable cloud data persistence.
- Built a 1 km community radar using geohash proximity queries to alert nearby users in real time via FCM.
- Integrated the Google Gemini API for an in-app AI assistant, with background location tracking and private evidence recording.

AIML Intern — EDU TANTR

Aug2025–Nov 2025

- Completed an intensive AIML internship with hands-on exposure to a professional work environment.
- Strengthened practical Python and applied machine-learning skills through EDU TANTR's structured curriculum.

College Campus App (Full-Stack & DevOps Project)

Aug 2026 – Present

- Built a full-stack campus web application (React, Node.js/Express, SQLite) with JWT + Google OAuth authentication and a custom trigram-based fuzzy search for fast lookups.
- Containerized the stack with Docker and authored Kubernetes manifests — Deployment, Service, Ingress and a Horizontal Pod Autoscaler (HPA) — for scalable, self-healing deployment.
- Implemented an in-memory caching layer, WebSocket real-time updates, security hardening (Helmet, rate limiting) and AWS (EC2/RDS/S3) integration for cloud deployment.

EDUCATION

Bachelor of Information Technology

August 2023 – June 2027

Maulana Abul Kalam Azad University of Technology (MAKAUT), West Bengal
Bengal College of Engineering & Technology, Durgapur, West Bengal – 713212

ADDITIONAL INFORMATION

- Certifications**
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional
 - IBM SkillsBuild — Artificial Intelligence Fundamentals with Capstone Project
 - Microsoft Certified: Dynamics 365 Fundamentals
 - Google 5-Day AI Agents Intensive Course (ULSA, 2025)

- Technical Badges**
- Kaggle Python Coder Badge | Kaggle Dataset Creator Badge
